

Your Personal
HASHTAG GUIDE

@talk.to.may

Hey, dreamer!

*Here's your personal
hashtag guide!*

Hashtags can help you increase your reach, diversify your audience, and yes, find more potential clients!

Hashtags are an essential part of your social media strategy, and it's always a good idea to stay up to date with the trending hashtags that are relevant for your business.

@talk.to.may

REMINDERS

- use 20-30 hashtags per post
- use hashtags that are in line with your image. Don't use #food if your picture is showing a hike in the woods.
- Mix and match short hashtags with long hashtags to reach a broader audience.
- Avoid using only hashtags with millions of posts such as #food or #photography. Your content can easily get lost there!

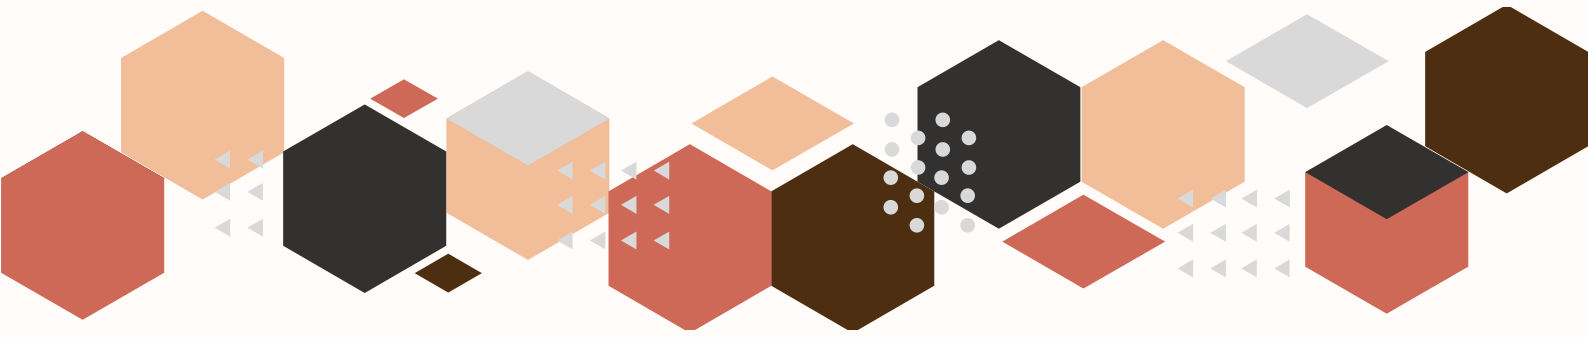

#mindfulnessmoment

- Diversify the hashtags you use in different posts to reach a broader audience!
- If you have a local audience, look for hashtags with the name of your location (country/city/state)

*Ready for this?
Let's go!*
